

USCIS Publishes New Forms for EB-5 Investor Program

Scott Gregory JD
July 14, 2022

On July 12, 2022, USCIS [announced](#) revisions to its Form I-526, Immigrant Petition by Alien Entrepreneur, used for EB-5 Investor cases. The changes split the previous version into two separate Forms, a [Form I-526](#) that will be used by standalone EB-5 investors, and a new [Form I-526E](#) petition to be used for those EB-5 investors petitioning through a sponsoring Regional Center.

Previously, all EB-5 investors submitted the same Form I-526, regardless of the basis of their qualifying investment. The new Forms were published to accommodate directives included in the recently passed [EB-5 Reform and Integrity Act of 2022](#). The filing fee for both Forms will be \$3,675, although starting October 1, 2022, an additional \$1,000 fee will be required for I-526E filings.

Stay tuned for the latest from the MPC immigration team as we closely monitor updates and other significant changes in US and Canadian immigration!
